

# Specification Sheet

## DRG75R Industrial Gas Dryer

### DRG75R

Capacity (Wet)	32kg
Volume	634L
Drum Diameter	940mm
Net Weight	310kg
Electricity	240 Volt - 50hZ
Electrical Req	Single Phase Standard GPO, 10 Amp Individual Circuit
Water Req (C.A.R.E)	Standard 19mm Cold Washing Machine Water Tap at 1.6m off Floor
Gas Connection	12.7 mm Gas Isolating Cock
Gas Heating	181.5MJ
<b>Gas Pressure</b>	Min = 1.13kPa Rec = 1.62kPa Max = 2.61kPa
Flue Diameter	Ø 203mm
Exhaust Flow Rate	380 l/s
Flue Termination	Bends terminating 500mm from roof line - No Mesh or Chinaman's Hats a 25mm gap on sides and a 100mm gap on top if dryer is to be built into an enclosed space.
